SKILLS

SQL | Data Governance | Python | PySpark | R | Data Science | Data Analytics | Data Warehousing | Big Data | Data Engineering | Git

JEEVAN KOSHY

Ex-Deloitte | Master of Data Science at Monash | Data Enthusiast

EDUCATION

Master of Data Science | Monash University
07/2023 - 06/2025, Melbourne

Bachelor of Science (BSc.) ~ Triple Major in Computer Science, Mathematics & Statistics | CHRIST (Deemed to be University)
06/2017 - 03/2020, Bengaluru, India

WORK EXPERIENCE

Deloitte Consulting US India (Offices of the US) | Analyst
08/2020 - 06/2023, Bangalore, India
Worked for an Australian banking client providing Data Governance and Data Engineering services

SCENAI | Data Science Intern
05/2019 – 06/2019, Bangalore, India
Extracted structured information from unstructured text in clinical reports providing knowledge trapped in free-text resources.
Generated emotional concept scores of a patient in R based on different inputs such as the first notice of loss, Doctor's prescription as well as SOAP notes.
Sentiment analysis using Natural Language Processing

PROJECTS

No More Bullying (03/2025 - 06/2025) Developed a child-friendly educational application leveraging machine learning and scenario-based learning to identify and educate about cyberbullying behavior. Integrated AI-driven feedback mechanisms and visual storytelling.

Tram Accidents in Melbourne (10/2024 - 11/2024) A website with different visualizations of tram accidents that have occurred in the city of Melbourne

Road Quality Index (10/2019 - 02/2020) A real-time framework for road quality assessment in identifying potholes. Powered by Google Maps, smartphone sensors, and machine learning algorithms

Python Data Science ToolBox (Part 1 & 2) | *DataCamp*
Intro to SQL for Data Science | *DataCamp*

DETAILED EXPERTISE

Core Technical Expertise	Skilled in languages such as Python, R, SQL
	Wrote SQL scripts with data transformation logics ensuring data accuracy within the data warehouse
	Worked with key stakeholders in ensuring successful deployment using DevOps practices
	Followed standards and best practices in writing SQL scripts
	Performed necessary data analysis using SQL identifying root cause issues
	Strong understanding of ETL processes, testing methodologies and tools
	Experience in version control systems such as Git and collaboration tools like Azure DevOps
Security, Compliance & Governance	Developed end to end Data lineage tracking from source to target for 81 business terms which was recognized and appreciated by key client counterparts. This helped in facilitating compliance reporting
	Ensured business terms are fully governed and adhering to regulatory standards such as APRA - Australian Prudential Regulatory Authority
	Prepared for audits on a quarterly basis ensuring necessary business terms were 'fully governed'
	Created reusable process documentation for Data Governance
	Experienced in metadata management for defining data quality rules ensuring data accuracy within the organization
	Assisted the client in developing documentation related to training for Data Governance
Data Quality, Testing & Reliability	Developed automation SQL scripts for regression and integration validation for quality in the client's data warehouse
	Presented and participated in design calls for deliverables before development ensuring code changes are approved
	Performed production support duties and problem resolution. Used ServiceNow for incident and change requests management
	Performed performance tuning for SQL regression scripts in increasing the pass percentage of the regression suite. This received client stakeholder appreciation
Collaboration & Leadership	Involved in a think tank with lead data engineers and stewards for discussions to migrate to a cloud platform
	Collaborated with Data Stewards and Senior Data Engineers to define data governance policies
	Mentored and assisted various teams as a POC for Data Governance ensuring deadlines were met
	Worked with Product Owners and other key stakeholders in business domains defining technical requirements
Professional Capabilities	Experience in Agile methodologies as Sprint captain for working in Scrum and Kanban
	Received a fast-track promotion in recognition of impact and performance
